## Tell Obama and Clinton: Stop attacks on Zelaya!

25.09.2009 kl. 23.30

At this moment the Embassy of Brazil in Tegucigalpa where President Manuel Zelaya has been staying since he returned to his country on September 21, together with his family and close to 100 supporters, is being blockaded and attacked with chemical and electronic noise-producing weapons by the Honduran military. Poisonous chemicals and gases are being thrown from helicopters. The entrance is guarded by heavily armed troops who do not allow the delivery of food or other necessities. Water and electricity have been cut off several times in an effort to starve and hurt those inside.

We demand the immediate cessation of these terroristic measures and the re-installation of President Zelaya to office.

We also demand the end of all acts of repression and violence by the illegitimate government of Roberto Micheletti against the people of Honduras and the immediate release of all the people detained for protesting the military coup.

Sincerely,
